Professional Experience

Data Analyst

Jan 2024 – Present

MiQ Digital (Global Programmatic Media Partner)

- **Revenue Impact:** Designed a Trust Measurement Solution combining **GenAI** and internal APIs to define new KPIs, directly generating **£1M** in incremental revenue.
- **Campaign Optimization:** Architected a weather-sync targeting algorithm using **PySpark** and weather APIs, increasing click-through rates (CTR) by **85%** through postcode-level granularity.
- **Strategic Insights:** Partnered with cross-functional teams to deliver actionable insights across 10+ verticals, driving data-backed strategies for **£5M+** in client investments.
- **Pipeline Automation:** Engineered automated **ETL pipelines** on **Databricks** and **AWS**, reducing manual reporting time by **15+ hours per week** and improving data latency by **40%**.
- **Geospatial Analytics:** Developed interactive **Tableau** dashboards and Folium map visualizations to interpret complex geospatial data, accelerating client decision-making by **30%**.
- **Recognition:** Awarded the **MiQ Impact Award** twice (Q4 2024, Q2 2025) for exceptional contributions to business innovation and client success.

AI Research Intern

Jul 2023 – Dec 2023

Symbiosis Centre for Applied AI (SCAAI)

- **Model Optimization:** Processed large-scale multimodal datasets (RGB + IR) to train object detection models, achieving **95% accuracy** through hyperparameter tuning.
- **Deployment:** Deployed real-time detection analytics using **Streamlit**, enabling live monitoring and reducing data processing time by **50%**.

Technical Skills

Data Analysis & Statistics: Python (Pandas, NumPy), SQL, A/B Testing, Hypothesis Testing, Statistical Modeling

BI & Visualization: Tableau, Power BI, Advanced Excel, Folium, Matplotlib, Seaborn

Data Engineering & Cloud: AWS (S3, Redshift), Databricks, PySpark, ETL Pipelines, MongoDB

Machine Learning: Scikit-learn, TensorFlow, Regression, Clustering, Predictive Analytics, NLP

Soft Skills: Stakeholder Management, Strategic Planning, Cross-functional Collaboration

Education

International Institute of Information Technology (IIIT), Bangalore

2025 – 2026

PG Diploma in AI & Machine Learning (Specialization: MLOps)

Symbiosis Institute of Technology, Pune

2020 – 2024

B.Tech in Electronics & Telecommunication (GPA: 8.9/10.0, Gold Medalist)

Key Projects

- **Market Intelligence Dashboard:** Built a predictive analytics tool using **Python**, Google APIs, and Prophet, delivering demand forecasting visualizations to support inventory planning.
- **Intruder Detection System:** Developed a real-time computer vision pipeline using YOLOv8 and **Flask**, implementing automated alerts for security anomalies.
- **Autonomous Medical Robot (Patented):** Led a team of four to build a robot with SLAM-based navigation and face detection; secured a patent for a novel pill-dispensing mechanism.

Honors & Achievements

- **AIR 4** – National Computer Vision Hackathon (2023) — **Rank 1** – FlytBase Global Hackathon (2023)
- **Gold Medalist** – B.Tech in Electronics & Telecommunication (2024)
- **President** – Robotics Club, Symbiosis Institute of Technology (Led 50+ members)

Certifications & Patents

- **Certifications:** Generative AI with LLMs (Coursera), PySpark & Big Data (Udemy), Machine Learning A–Z
- **Patents:** Smart Waste Management System (2023), Autonomous Healthcare Robot (2023)
- **Publications:** Research published in **IEEE Xplore** (Automated Crop Health) and **IET Smart Cities**
